

AI_HPC QUANTUM

Facing the technological challenge. Today.

8 OCTOBER 2026
Spazio Field – Palazzo Brancaccio, Rome

E4 Computer Engineering is pleased to announce, once again for the 2026 edition, a **Call for Posters** aimed at researchers, professionals and innovators who wish to present projects, applications and research findings in the fields of **Artificial Intelligence, High-Performance Computing and Quantum Computing**; this offers a tangible opportunity to share one's work with a qualified audience of experts from the worlds of research and industry, and to contribute to the discussion on the technologies that are driving innovation.

How the selection process works

The submitted posters will be assessed by an independent technical and scientific committee, which will define the evaluation criteria and select six projects to take part in the event's poster session.

What E4 is offering as a prize

- On the day of the event, the committee will announce the most deserving project, which will be awarded a DGX SPARK free of charge, courtesy of NVIDIA and E4.
- E4 will cover the full cost of printing the posters for the selected projects.

Applications must be received by 30 September 2026.

To take part, please submit your application to marketing@e4company.com, stating:

- a brief abstract of the project
- the provisional title of the poster
